PROFESSIONAL EXPERIENCE

Head of Design Department | Nexique Design Studio | Islamabad, Pakistan

September 2022 – Present

- Lead and coordinate design work across projects, helping maintain visual consistency and quality.
- Develop creative concepts and design solutions aligned with client goals, target audiences, and brand identity.
- Contribute to computer graphics design and a range of visual communication deliverables.
- Collaborate with team members and stakeholders to review concepts, incorporate feedback, and deliver polished designs.
- Support design planning, prioritisation, and coordination to keep project work organised.

Freelance Graphic Designer, UI/UX Designer & Web Designer | Independent / Remote

2019 – Present | 7 years of freelance experience

- Portfolio also includes illustration work; experience has included work associated with Hollywood celebrity Karen Gillan.
- Delivered design services for multiple companies, including Amply (joinamply.com), QClay Design (qclay.design), and direct clients.
- Designed brand identities, logos, digital marketing assets, web layouts, user interfaces, packaging, and print materials based on project needs.
- Worked directly with clients to understand briefs, define design direction, present concepts, and incorporate revisions.
- Applied user-centred design principles to improve clarity, usability, and consistency across digital experiences.
- Managed multiple projects independently, balancing creative quality, communication, and deadlines.

Freelance Graphic Designer | QClay Design – UI/UX Design Agency

September 2020 – February 2022 | Remote

- Created graphic design deliverables in a remote agency environment.
- Collaborated on design work with attention to client requirements, brand consistency, and project feedback.

Selected examples are listed below; additional design, branding, illustration, and digital projects are available in the portfolio.

SELECTED PROJECTS

BALD | Website Design | October 2023 – November 2023

- Contributed to a technology-focused website concept built around a distinctive cybernetic visual direction.

Bevit | Health Supplement Brand Identity | March 2023 – April 2023

- Developed brand identity work for a health supplement brand, with visual messaging focused on the health-product category and body positivity.

BOPEEP | Smart Robot Concept Design | January 2021 – March 2021

- Created a concept design for smart robots intended to simplify repetitive day-to-day tasks. Additional projects and work samples are available through the portfolio link below.
